I am trying to figure out how to use native Stack with a managed stack. Here is my example: public static void Main(string[] args) { IList mylist = new Stack(); int[] array = new int[1000]; for (int i = 0; i = 0; i--) { Console.WriteLine(mylist[i]); } Console.ReadLine(); } I have made the stack native and it still gave me an error. Why? A: My initial guess is that the CLR is not managing any native resources. Either the a1d647c40b
