
Farsi Font For Photoshop Download Free

[Download](#)

To enable Farsi or Arabic in Photoshop CC, go to settings (CTRL + K) > Type tab, then set the text engine to MIDDLE EAST AND SOUTH ASIAN. Click OK. This is all. Photoshop CC has some interesting options, especially if you want to include Arabic in Photoshop. Open the editor, go to the "Type" tab and select "Middle East and Southeast Asia". Click "OK" to apply the changes. If you want to add languages â€‹â€‹at a later stage, go to the Type tab and choose Custom Type and select LANGUAGE. I also saw someone suggest this method:
